Add Two Integers

a	b	c
0	0	0
0	-1	-1
-1	0	-1
-1	1	0
12	5	17
-12	5	-7
5	-12	-7
5	12	17
-5	-12	-17
-12	-5	-17

```python
class Exam:
    def __init__(self, a,b,c,show)->'None':
        if (show):
            print("a =",a)
            print("b =",b)

            #WRITE CODE BELOW
```

```python
def main():
    print("TEST ON YOUR OWN. a =1 b =-1 answer is 0")
    print("Must call only:s = Exam(a,b,c,True)")
    print("You cannot call any other function")
```
